

MR MANDONA ALFRED KALUMBU

N-WESTERN, Zambia

Alfredmandona291@Gmail.com / +260976962837 or +260768173305

PROFESSIONAL SUMMARY

A technologist focused on building the next generation of trusted applications. I combine core software development with strategic insights into AI and blockchain to create solutions that are innovative, automated, and inherently secure. My goal is to leverage these technologies to solve real-world problems with efficiency and clarity.

SKILLS

- Problem Solving & Analytical Thinking
- Teamwork & Communication
- Adaptability in Field & Office Environments
- Time Management & Work Ethics
- Documentation & Reporting

TECHNICAL SKILLS

Programming & Scripting: Python, Java, C++, JavaScript

Web Technologies: HTML, CSS, JavaScript

Databases: SQL, MySQL

Industrial & Hardware Exposure: System on Chip (SoC), FPGA, Digital Circuit Design
Industrial Tools (Learning): Power BI, ThingWorx

EXPERIENCE

ELECTROL COMSSION OF ZAMBIA| AUGUST 2021

- Worked as a polling assistant for the 2021 general election
- Worked in this field under strict deadlines
- Counted votes and helped voters to cast their vote

SOFTWARE DEVELOPMENT PROGRAM DECEMBER 2023

- Completed a 16-week intensive training under the Power Learn Project
- Gained practical skills in Python, Web Technologies, Database Management, and Dart with Flutter
- Developed both technical and soft skills for real-world software development and collaboration

INTRODUCTION TO DEEPLARNING MAY 2025

- Completed Kaggle's foundational course on neural networks and model training
- Gained hands-on experience with TensorFlow/Keras for building and optimizing deep learning model Applied
- concepts to real-world tasks such as image classification and prediction

HUAWEI TALENTS CERTIFICATE OF COMPLETION JUNE 2025

- Completed the study and exam of artificial intelligence applications | JUNE2025
- Collected and verified data using digital data-collection tools.
- Worked in field environments under strict deadlines and targets.
- Developed discipline, accuracy, and teamwork skills relevant to industrial operations.

EDUCATION AND TRAINING

Mulungushi university: BSc computer science

2021-present

tick day and boarding secondary school : grade 12 certificate

2015-2018

CERTIFICATIONS/BADGES AND CERTIFICATES

- Artificial Intelligence and Applications (Huawei) ○ Software development (power learn project) ○ Deep Learning Certificate (Kaggle) ○ Python Programming Certification
- Kaggle Badges: Python Coder, Dataset Creator, Learner

ACHIEVEMENTS

- Recognized for leadership and innovation in academic group projects
- Scored top 10% in AI and Deep Learning certifications

PROJECTS

- Blockchain agriculture supply chain
